For Immediate Release:

Press Release - Save My Musik Launches with a 10% Music Service Discount!
07 March 2009

In celebration of our site launch this week, we are pleased to offer a 10% discount to any new customer who enrolls until March 31st. This is as low as \$40 AUD for a 12-month 10GB storage plan! To take advantage of this offer simply type in the promotion code, 789oz, when registering.

Save My Musik is the first entirely cloud-based, personal music management website. Our aim is to ensure a hassle-free music service experience.

Users can easily organise and manage their own music files and playlists, over time saving countless hours of management headache whilst protecting them against potential music collection loss. Once the music is in the cloud, users can 'login and listen' from any computer in the world, from just about any type of media player.

No longer do you have to decide how much storage space you will need. Users can select a low-end storage plan and as time goes by, easily upgrade their storage space as their online music collection grows.

To take a free 7-day test drive, visit us at <http://www.savemymusik.com> and 'Live the Internet in Stereo!'

Save My Musik Pty Ltd is a proprietary limited company based in Sydney Australia, Australian Business Number ("ABN") 89 121 308 594. The company provides an online music service. Save My Musik® is the first entirely cloud based, personal music management website. Our aim is to provide a hassle free music storage and streaming experience. Now you can login and listen to your music anytime, anywhere you have an Internet connection. Our brand and logo used in our products and services are registered trademarks of Save My Musik®.
